PERSONAL

JOE ERICH, postmaster and merchant of Arrowhead, is a visitor to Tonopah.

FRITZ TATORIS, booster of Arrowhead, is a business visitor to Tonopah.

ED MALLEY, state treasurer, left yesterday for Carson City after having cast a vote here.

GEORGE A. DUGAN, wife and baby have gone to Hot Creek to enjoy a vacation of a week.

J. M. FULTON, assistant freight and passenger agent, will arrive here tomorrow morning to look after office business.

A. W. MARSH is in from Hunt's canyon looking after business matters. Mr. Marsh qualified at the primary election for assemblyman.

H. H. ATKINSON returned yesterday from a tour of the northern part of the state in the interest of his nomination for attorney general.

JERRY LUCEY, who has been conducting the Peoples root beer stand on Main street, has sold his place to Pat Morgan of Reno. Mr. Lucey will leave tomorrow morning for San Francisco, where he will enter a hospital. Mrs. Lucey will remain here for a couple of weeks.

CANADA HAS GREAT WEALTH IN LANDS
OTTAWA, Ont., Sept. 6.—Agricultural wealth of the Canadian provinces west of the Great Lakes, comprising Manitoba, Saskatchewan, Alberta and British Columbia, is set at \$3,235,622,000 by a recent estimate of the government bureau of statistics in an estimated total for all Canada of \$6,831,022,000.

Saskatchewan in 1909 raised only 8 per cent of the total Canadian wheat production, but now is given an agricultural wealth estimate of \$1,517,146,000, or \$374,000,000 below that of Ontario, whose agricultural wealth dates back several centuries.

With the three prairie provinces of Manitoba, Saskatchewan and Alberta credited with nearly \$3,000,000,000 in agricultural wealth and with 20,000,000 acres of good land still untitled within the area of settlement, the outlook is bright, says the government report.

HOLY COMMUNION IS OBSERVED THIS DAY
PORTLAND, Ore., Sept. 6.—Thousands of Episcopal churchmen from almost every county in every state in the United States, and also many from foreign lands, joined in elaborate celebrations of the holy communion this morning in every Episcopal church and mission in Portland. The services were held simultaneously at 7:30 a. m. and marked the opening of the forty-seventh triennial gathering of the general convention of the Protestant Episcopal church.

The convention will be in session here until Sept. 23. Prominent among the problems which delegates will consider are proposed changes in the book of common prayer and the adoption of a program for the next three years.

TOKIO IS DESERTED IN GOOD OLD SUMMER TIME
TOKIO, Sept. 6.—The hot summer days which, with their continual heat, mosquitoes and other discomforts, extend from mid-June until the end of July are days of additional worries to the business men of Japan. Official and political affairs virtually come to a standstill, those who direct the business of the country leaving for the mountains and seashore to escape the heat, while those left in charge behind find a few hours in an office trying to keep health and nerves together.

Until this year, when the Kato ministry increased the hours, government offices closed at noon, even some departments of the postoffice complying with this regulation. Recently, when an American mail which landed at Yokohama early on a Monday morning was not distributed in Tokyo until late the following Wednesday, the Japanese newspapers printed it as "freaking illness owing to the hot weather."

STAND IN SILENCE
SAN JOSE, Calif., Sept. 6.—Delegates to the convention of the American legion, which opened here yesterday, stood in silence twenty minutes out of respect to those lost in the war, and ten seconds for the California pioneers. Governor Stephens delivered an address praising the work of the legion and lauded the criminal syndicalism law as a defense against radicalism.

NOTICE, R. A. MASONS
Regular convocation of Tonopah Chapter No. 12, R. A. M., Thursday evening, 8 p. m. Work P. M. degree. Visiting companions cordially invited. By order of the H. P.

THOS. LINDSAY, Secretary.
Remember the job printing department of The Bonanza is the most complete and up-to-date in the state of Nevada. No reservations or exceptions to this statement.

REED LEASE PROVES GREAT PROPOSITION

A carload of ore is to be shipped in the next few days from the Reed lease on the Florence. The ore comes from the Florence Divide section, in the vicinity of the Little Florence shaft. Reed is now prospecting in various parts of his block. Donald and Giles are crosscutting toward the hanging wall of the Reddy stopes on the fifth level. Brocklebank and his brother continue work in the Florence consolidated section. They are raising from the 255-foot level. A drift on a cross-fault to the Daisy vein is being driven in the Bankers block. The drift shows quartz and tale, and low assays in gold are being obtained. The condition is regarded as being very encouraging. A large vein is being driven into the east crosscut from the Jumbo drift, south of the Pennsylvania shaft. This vein is thought to be a part of the Jumbo system.

R. C. McCarthy, superintendent of the Florence, reports progress in the various leases as follows:
In the Bankers lease a total of 71 feet of work was done during the past two weeks. In the east crosscut from the Jumbo drift, at a point 65 feet in the Jumbo drift, the crosscut has not yet reached the footwall formation but shows a favorable change and something of interest is expected within a few feet. The Daisy drift on the east crosscut fissure about four feet between strong walls, showing good mineralization and streaks of quartz breaking through south of footwall, some of which carries low values in gold. Will continue until favorable change of wall formation is found.

In the Donald & Giles lease, on the 258 Florence level, they are driving a crosscut easterly into the hanging wall of the main Reddy vein, and are also raising on a streak in the hanging wall from this level and cleaning up the low drift on the Reddy level.

CANDELARIA MILL NEARS COMPLETION
A complete change in milling plans of Candelaria Mines company has been announced, involving a 100 per cent increase in reduction capacity from 300 to 500 or 600 tons a day. Recent extensive increases in demonstrated ore reserves were doubtless the impelling influence in pressing this expansion step at this time.

A delay of only three weeks will be involved, as the present mill requires only the addition of extra tankage space and installation of one more filter press. Crushing facilities and other equipment were already sufficiently oversize to handle the increased tonnage, as an early expansion in milling capacity was contemplated when the original mill plans were drawn up.

Underground production arrangements are also being increased, including the installation of an electric hoisting plant on the Northern Belle shaft. This will render possible ore extraction from levels below the level of the tunnel level, where the last thousand samples proved large quantities of excellent ore. The haulage system is also being improved to handle 600 tons of ore daily and maintain steady mill supplies. These improvements are expected to bring Candelaria up to a leading position among the silver producers of this country.

SILVER PICK HAS RUN OUT OF ORE
The ore body in the Silver Pick lease on the Red Top at Goldfield, after producing about \$50,000 gross, has been exhausted and production has stopped. The force of miners has been reduced and those remaining in the lease are all employed in prospecting on the third, intermediate and fourth levels. Work on the second level has been discontinued.

There is practically no ore in sight in the vicinity of the big stope, and it is evident now that the ore body formed only in the bulge in the vein and that the ore found below and north of this bulge was a mere dribble. Although the ore body has now been exhausted, the block is considered one of the best places for prospecting in the district.

The Silver Pick is going to continue prospecting as at present, as the heretofore little known vein has proved to be productive and there may be other rich shoots in it. A crosscut being driven into the footwall on the third level is in a very promising formation.

LONG SENTENCE GIVEN
MEXICO CITY, Sept. 6.—Col. Enrique Padilla was found guilty yesterday of usurpation of authority in connection with the recent kidnapping of A. Bruce Bielaski and sentenced to ten years' imprisonment.

AMUSEMENTS

JACK HOLT AND BEBE DANIELS AT THE BUTLER TODAY

The story, "North of the Rio Grande" is one of the most thrilling, sweeping yarns ever pictured, and the players who interpret it could not have been better selected. It is a western picture, a sizzling romantic dramatic drama of the great outdoors, of the land where men are men. It moves with the sure breathless speed of the two wonderful horses around which it is woven; it has situations to set the pulses throbbing, the heart beating wildly and the brain to stand still at the wonder of what is going to happen next. It has suspense, vigorous action and a thunderbolt surprise just before the end. And it has been filmed in the actual settings—down in Arizona. Also on today's program, "The Piper," a two-reel comedy, will be shown. Tomorrow: Ethel Clayton, in "For the Defense," and Pathe News, "Coming, Norma Talmadge, in 'Smilin' Through'."

LEADVILLE MINE IS BIG ORE PRODUCER

The Leadville mine, north of Gerlach, shipped five carloads of concentrate last month. Each carload is returning about \$6,200. August will go on record as the best month so far in the history of the Leadville.

A. A. Cudd, manager, says: "Ore on the 400-foot level is showing up fine. In stope No. 12 which is 75 feet long, we are breaking ore that carries over 20 ounces silver with a good percentage of lead. That is only one of several stopes in the mine, but it is our best one up to date. However, one cannot tell what the drift on the 300 will break into. The face is now showing two feet of ore carrying about 41 ounces of silver with some lead content."

"According to a report from our superintendent, our mill heads show values of \$11.00. That is the best we have yet had and is higher than one would expect the mine to hold up to for any continued run. We are running through about 40 tons daily."

"A little later I expect to speed up production and run to full capacity of about 50 tons daily."

TONOPAH EXTENSION INCREASES EARNINGS

Tonopah Extension increased its July operating profits spectacularly, a new high for the current fiscal year being set at \$52,432. This brings the total from April 1 up to \$161,454. Working gain for June was \$37,420, contrasted with \$32,103 in May and \$40,299 in April.

In the entire fiscal year ended March 31 last, profit was only \$100,512. Developments on the 1880-foot level of the Extension mine are said to have assumed greater prominence.

CLASSIFIED ADS

WANTED

WANTED—Teacher for French. Apply Bonanza office.

FOR RENT—Nicely furnished room, suitable for gentlemen. Inquire corner Main and Corona.

FOR RENT—Nicely furnished rooms in stone house. Inquire at Holly's Inn.
